

BIG NAVAL STORES DEAL IN WEST END

D. W. McArthur and Others Purchase Extensive Plant.

MANY THOUSAND ACRES

Five Round Timber and Thirty Crops, or 300,000 Boxes, Included in the Deal—Firm Will in Future be Known as D. W. McArthur & Co.

Another extensive naval stores deal has been made in this county. D. W. McArthur of the Florida Land Company, Montbrook, and others, having purchased the immense naval stores interests of D. McKinnon & Co., near Newberry.

The tract comprises 10,000 acres of round timber, and in addition to this the plant is working thirty crops, or 800,000 boxes, which are yielding handsomely.

With the present price of turpentine and resin, and the output, this farm is bound to prove a most prosperous financial venture.

AN IMPORTANT DEAL.

Eighty-One-Acre Tract Near University Grounds Purchased.

Another important land deal has been made in this city, which shows that real estate is still lively. The deal comprises eighty-one acres of land on West Liberty street, opposite the new University grounds, known as the Ellis property. It is, owing to the location of the University grounds, among the most valuable in the city.

The purchasers of this tract are J. J. Haymans, E. W. Millican and P. E. Baker, and it is understood that the price paid was a good one.

The purchasers propose to divide the property into building lots, and will place the same on the market at the proper time. They will each, however, erect a nice residence on the new possession, and in consequence of the close proximity to the new University no better homes can be found in Gainesville.

JUSTICE COLMAN'S COURT.

Richard Robinson Was Fined Upon Charge of Fighting John McCray.

John McCray, a hackman, who was fined in the mayor's court Saturday morning upon a charge of fighting Richard Robinson, who had been arrested upon the same charge, and discharged, was not satisfied with the result, and, upon a warrant caused to be issued by him, Robinson was "hauled up" before Justice Colman on Monday. In the opinion of Justice Colman, after the case had been stated to him, Robinson was adjudged guilty, and was assessed a fine of \$1 and costs, which was promptly paid.

Park's Georgia Success.

The success of the Park Stock Company, which opened a week's engagement in this city Monday night, was remarkable in Georgia, especially in Valdosta and Dublin, where they were compelled to turn away people nearly every night.

This company is now making its second annual tour of the South, and the proprietor and his associates are so clever that they are making friends all ways. The coming of Mr. Park to Gainesville this year was one of a great deal of sincere pleasure, not only for the excellence of his show, but on account of the warm friendship which our people have for himself and estimable wife and clever son, Sam, which has been retained since last season.

"You know it does the heart good to meet people like the Gainesville folks," Mr. Park admitted yesterday. "They were so good and kind to us last year, and seemed so much to appreciate our humble efforts to entertain them, that my good wife and myself have anticipated very pleasantly the visit this season."

Mr. Park expects to return to Gainesville in January, when he will present a benefit to Gainesville Lodge No. 880, B. P. O. E. He is a prominent and enthusiastic member of that order.

In Mayor's Court.

Sampson Gary, a small colored boy, was arraigned in the mayor's court Monday morning upon a charge of striking a child. After hearing the evidence in the case Mayor Thomas came to the conclusion that the defendant was too youthful to realize the gravity of the crime, and let him off with a good lecture and the payment of the costs.

WHY DOCTORS FAIL AND MRS. PINKHAM SUCCEEDS

Main Reasons Are Here Given to Explain Why Lydia E. Pinkham's Vegetable Compound Cures When Doctors Are Powerless

A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story.

She holds something back, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor.

Is it any wonder, therefore, that the doctors fail to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician.

It was for this reason that years ago Mrs. Pinkham, at Lynn, Mass., determined to step in and help her sex. Having had considerable experience in treating female ill with her Vegetable Compound, she encouraged the women of America to write to her for advice in regard to their complaints, and being a woman, it was easy for her ailing sisters to pour into her ears every detail of their suffering.

In this way she was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago a great army of her fellow-beings are to-day constantly applying for advice and relief, and the fact that many thousands of them have been cured by following the advice of Mrs. Pinkham during the last year is indicative of the grand results which are produced by her unequalled experience and training.

No physician in the world has had such a training, or has such an amount of information at hand to assist in the treatment of all kinds of female ills, from the simplest local irritation to the most complicated womb diseases. This, therefore, is the reason why Mrs. Pinkham, in her laboratory at Lynn, Mass., is able to do more for the ailing women of America than the family physician. Any woman, therefore, is responsible for her own suffering who will not take the trouble to write to Mrs. Pinkham for advice.

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Woman Flees from Highbinders.

Washington, Oct. 30.—Fleeing from Chinese highbinders in New York, Lucy Rosebury, white, 26 years old, who says she is the wife of a Chinese cigar merchant in Mott street, that city, summoned a representative of the press to the railway station here to relieve her conscience by telling of the doings in the Chinatown of the metropolis. Yesterday the woman said she was warned by the white wife of another Chinaman that the highbinders had decided that she knew too much and was to be disposed of. She hastily gathered up some money, told her husband she was going to a store across the street, and departed for her home in the south.

Republicans Nominate Jerome.

New York, Oct. 30.—The Republican county convention, which was adjourned Oct. 13, subject to the call of the chairman was convened to nominate a candidate for district attorney, vice Charles A. Flammer, resigned. William Halpin, authorized by the executive committee, placed before the convention the name of William Travis Jerome. There was no other nomination, and Jerome thus unanimously named. Halpin then announced that as soon as the minutes of the convention were transcribed and the certificate of nomination was made out they would be filed before the board of elections, probably tomorrow.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Portuguese Troops Kill Natives.

Lisbon Oct. 30.—An official dispatch from the governor of Portuguese West Africa tells of a sanguinary encounter between troops and natives on Oct. 25. The latter, numbering 3,000, ambushed a column of Portuguese troops, who fortified themselves in two kraals with five earthworks, but after eight hours' fighting the Portuguese captured the earthworks, killing two hundred natives. The Portuguese lost 15 men.

POINTED PARAGRAPHS.

The prudent man opens his eyes and shuts his mouth.

Treat every one as though you expected him to some day be your enemy.

If there is a dog in the manger throw him out. He doesn't belong there.

Are you as active in paying a bill you owe as you are in collecting a bill due you?

If it were not for the fact that most people ask too much indemnity there wouldn't be much use for courts.

You can get up a quarrel, but will you be any better off after you have quarreled so fiercely that peace will be agreeable?

It is a good plan for a woman to occasionally let her husband have his way without giving him a look that will take the pleasant taste out.—Aitchison Globe.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

Wood Saints in Palestine.

"Wood saints" are peculiarities of modern Palestine. They are described in a book of travel and exploration, "The Jordan Valley and Petra," by Dr. Libbey and Dr. Hoskins. At El Abadiyeh, below the sea of Galilee, where the Jordan is fordable, they found their first good specimens of a "wood saint." A couple of straggling trees mark the resting place of some holy Moslem. The grave has made the trees sacred, has given them a new name, "fakireh" (poor), and has rendered them safe from outrage for ages to come. The grave of the holy man and the sacred trees convert the spot into a sort of sanctuary or "safety deposit," and here the superstitious people bring firewood, roof timbers, old doors and windows, agricultural implements, wooden measures and household vessels for safe keeping. They are safer here than they could possibly be under lock and key in their wretched homes. So it comes to pass that these Moslem "wood saints" are altogether an extremely useful fraternity.

Cures Chills and Fever.

G. W. Wirt, Nacogdoches, Texas, says his daughter had chills and fever for three years; he could not find anything that would help her till he used Herbine. His wife will not keep house without it, and cannot say too much for it. 50c. Sold by W. M. Johnson.

The Truth About Vanity.

When one comes to think of it, vanity may be defined as an appreciation of the beautiful, which impels us to make ourselves as beautiful as it is possible to be. It appears also on analysis that a desire to make oneself better is a confession of the need of being beautified, so that the girl or the man who titivates may have a less conceit than those who go about content with themselves as they are, ugly, probably, for it so often happens that Providence denying beauty denies also the appreciation of it in other things and persons.—Black and White.

A Letter From Europe.

Mrs. Struckoff—Faw, Emmy writes that the most interesting thing she's seen in the hull trip is the Sphinx; says she just loves it. Mr. Struckoff—Well, you write to Emmy to buy it an' fetch it home with her. Like to see one of them darn things myself!—Brooklyn Life.

Singling Herdity.

"Whom do your two little boys resemble, Mrs. Fittler?" "Well, the homely boy looks like his father and acts like me, and the pretty one looks like me and acts like his father."—Life.

To Cure a Cold in One Day

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25c.

**For Thin,
Poor Blood**

You can trust a medicine tested sixty years! Sixty years of experience, think of that! Experience with Ayer's Sarsaparilla; the original Sarsaparilla; the Sarsaparilla the doctors endorse for thin blood, weak nerves, general debility. We have no equal. *W. D. Ayer, Lowell, Mass.*

WINTER ECZEMA SKIN HARD AND DRY

Some skin diseases are active in Summer, while others wait until cold weather to manifest themselves. Winter Eczema sleeps in the system through the long hot months, and gives no sign of its presence, but at the coming of Winter the trouble asserts itself and it becomes one of the most painful and distressing of all skin diseases. The blood is filled with poisonous acids which seem to be excited by the cold; and as these are thrown off through the pores and glands, the skin cracks and bleeds, the flesh becomes hot and feverish and the itching intense. The natural oils which keep the skin soft and pliant are dried up by the cold, bleak winds, causing it to become hard and dry, giving it that shiny, leathery appearance, characteristic of the disease. The head, face, hands and feet are the usual points of attack, though other parts of the body may be affected. So painful and distressing is the trouble that the sufferer constantly "doctors" and treats, it trying to get relief. Soothing washes, medicated ointments and salves are used, but aside from giving temporary relief they do no good. The cause is poisonous acids in the blood, and these must be removed before a cure can be effected. The only cure for Winter Eczema is S. S. S., the greatest of all blood purifiers. It cleanses the entire blood supply of the acrid poisons and sends a fresh, healthy stream to the diseased skin, healing and softening it and curing the painful, itching eruptions. S. S. S. enters the blood and purifies it of all waste and foreign matter, and cures Winter Eczema—or Tetter as it is sometimes called—safely as well as surely; besides it does not contain any harmful mineral to derange or damage any part of the system.
